

Assembly Instruction

**Kit storage box with hinged lid
for Carson Goldhofer flat bed trailer M1:14
- battery installation standing -**

Best.-Nr.: 2018-9345-GOA....

Version 1.0 – 20.07.2018

General Description

This polystyrene-milled parts set for a storage box with hinged lid as an accessory to the Carson flat bed trailer Goldhofer designed.

The storage box will be installed on the plateau of the Goldhofer flat bed trailer (the screw points and cable openings must be added at your own discretion).

It offers space electronics or a battery, as well as for any switches and charging sockets.

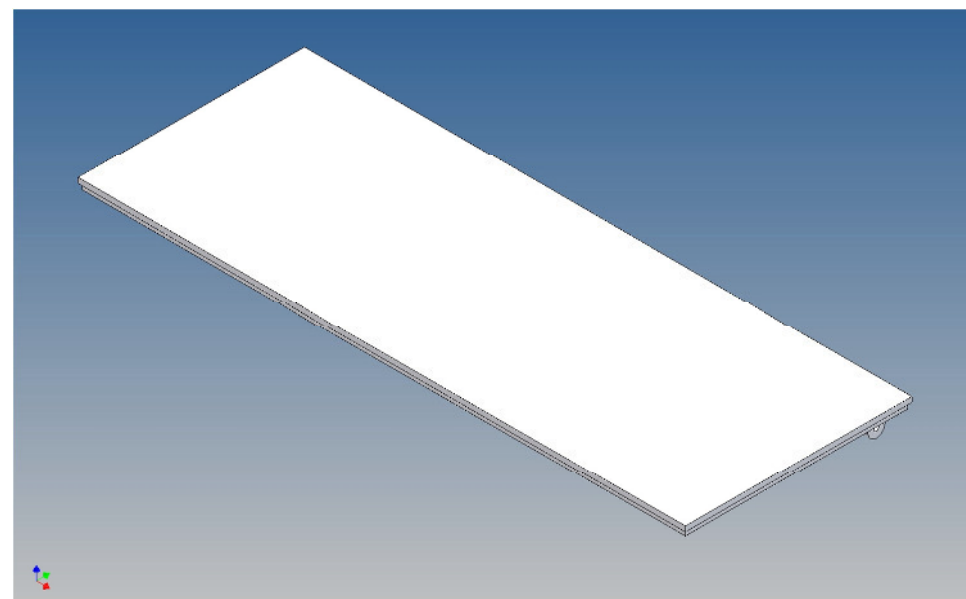

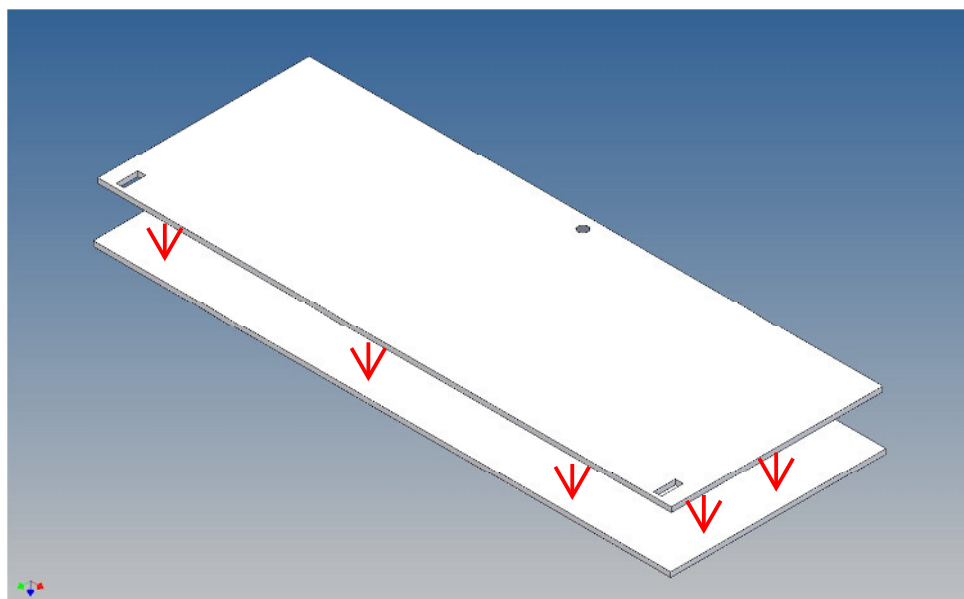

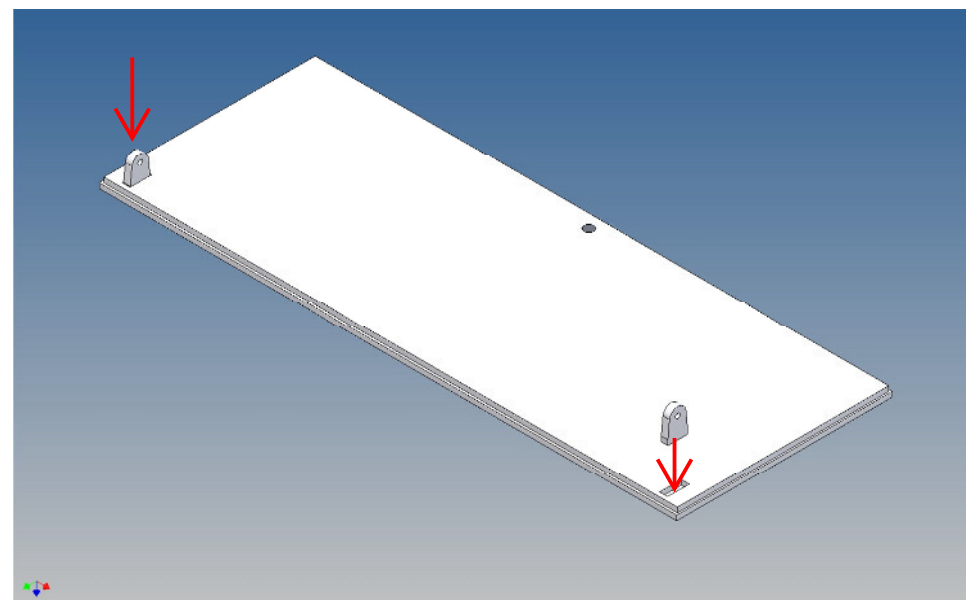

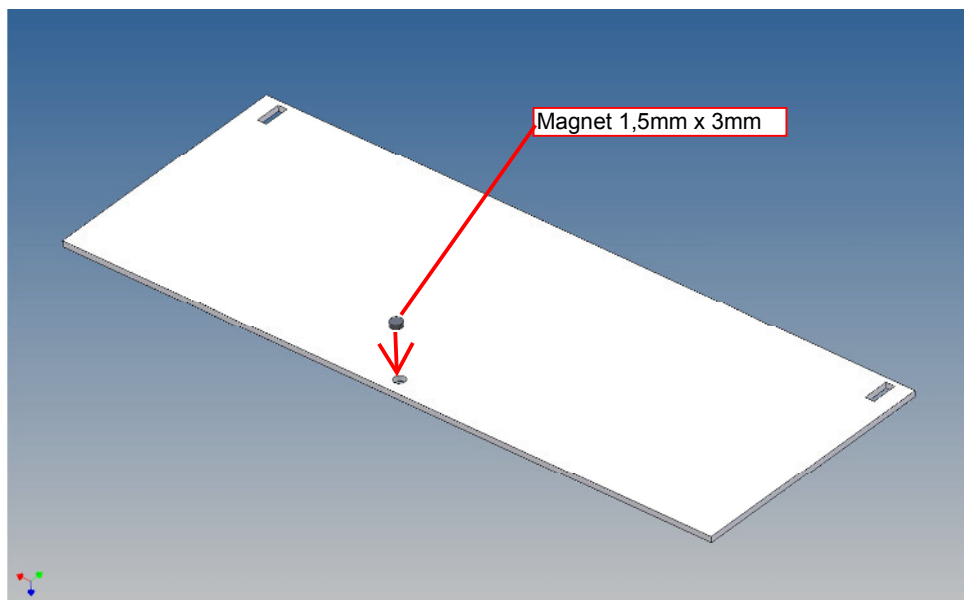

Fast access to the technical components is ensured by magnetic locks. Magnets are included in a separate bag (pay attention to polarity).

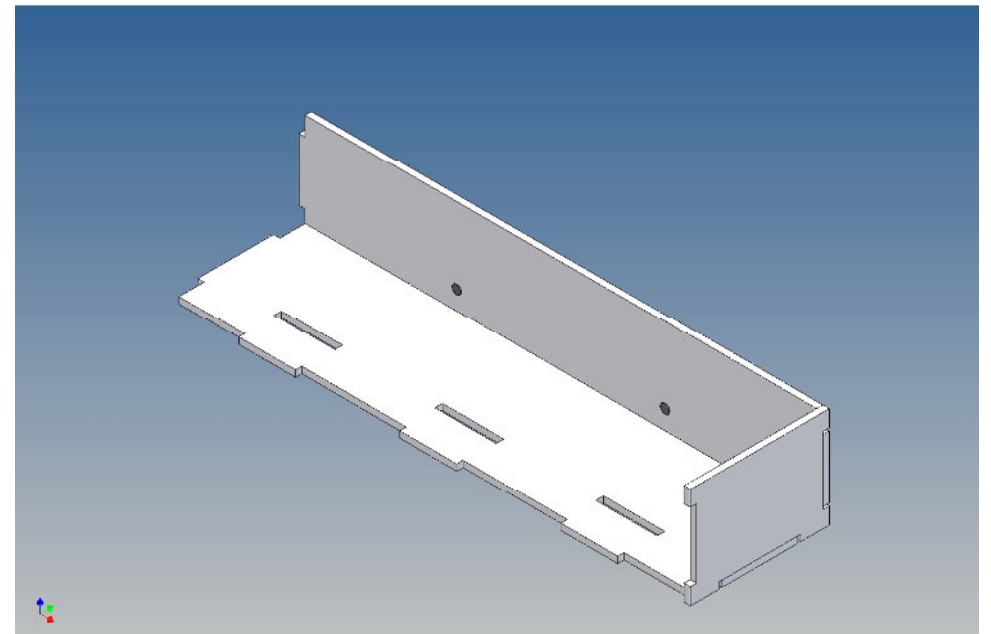

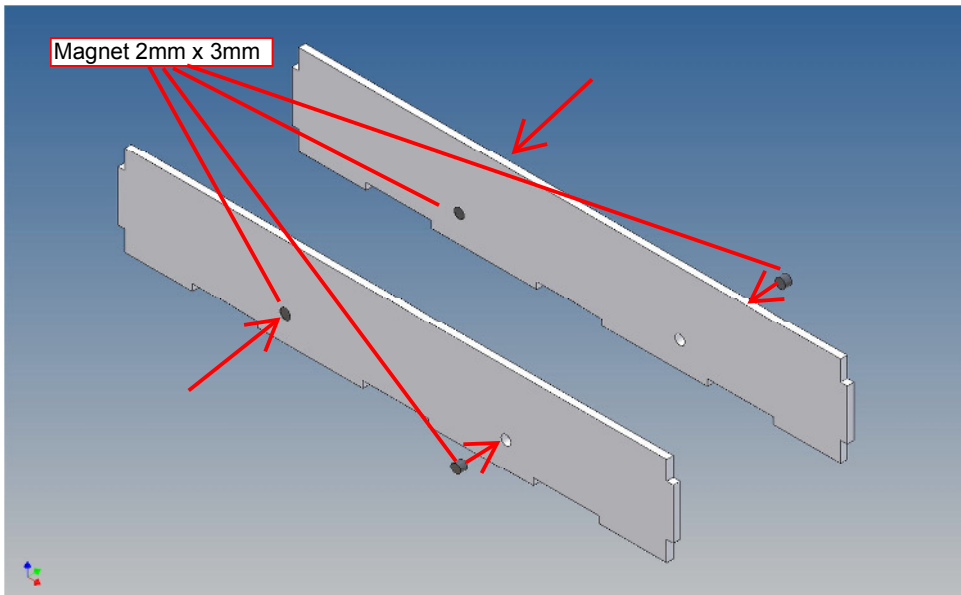

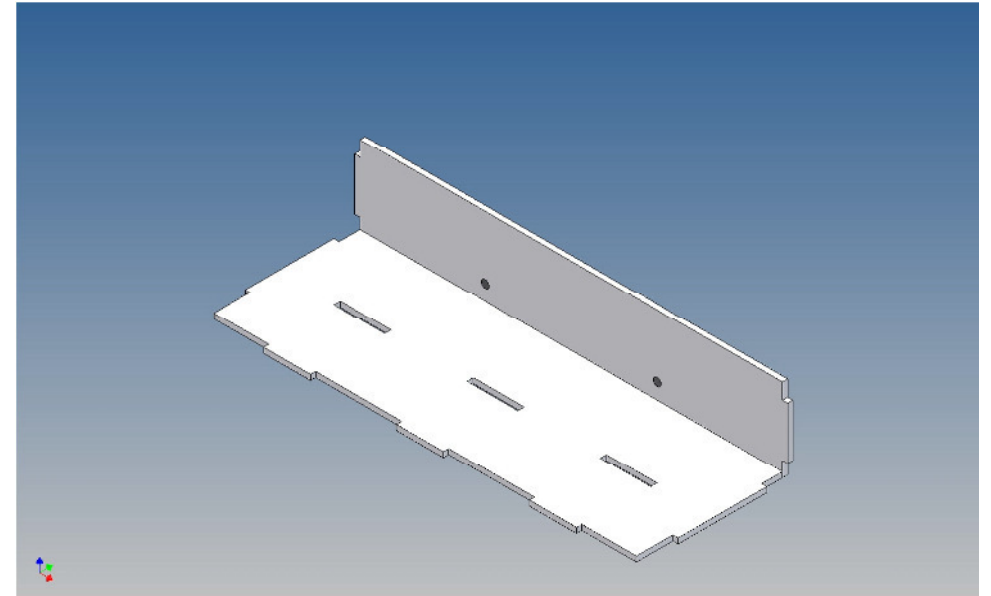

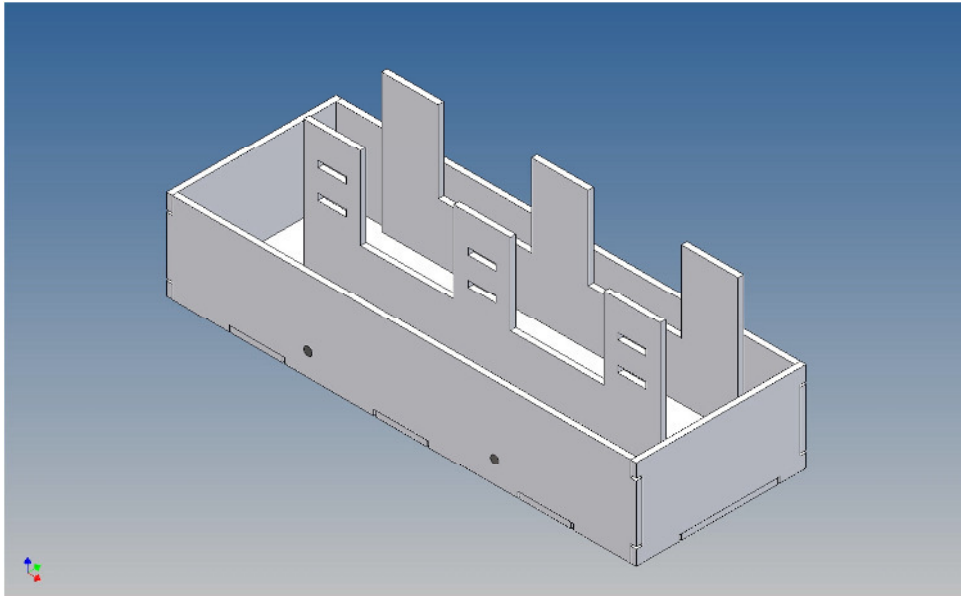

Assembly Procedure

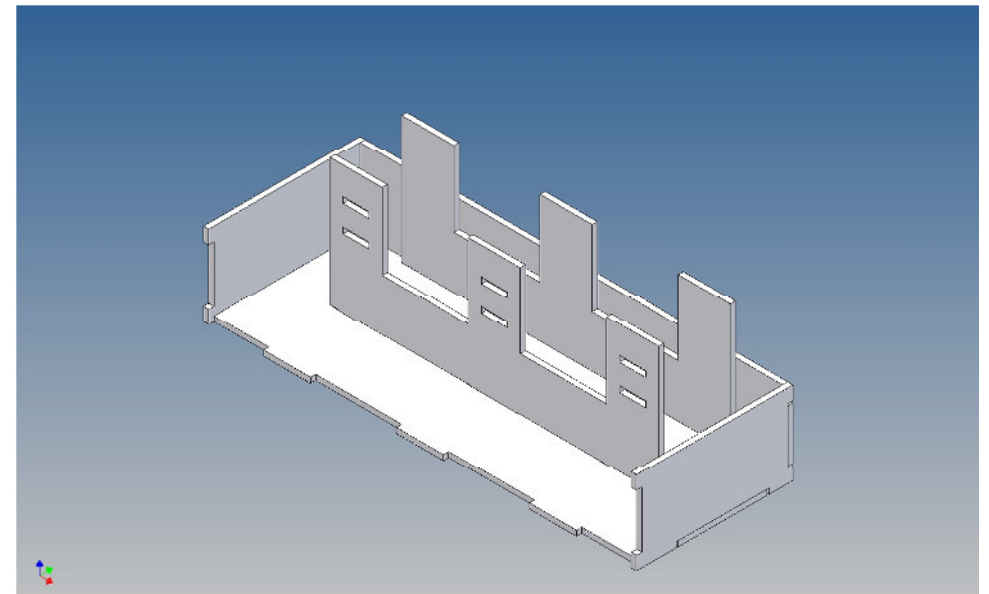

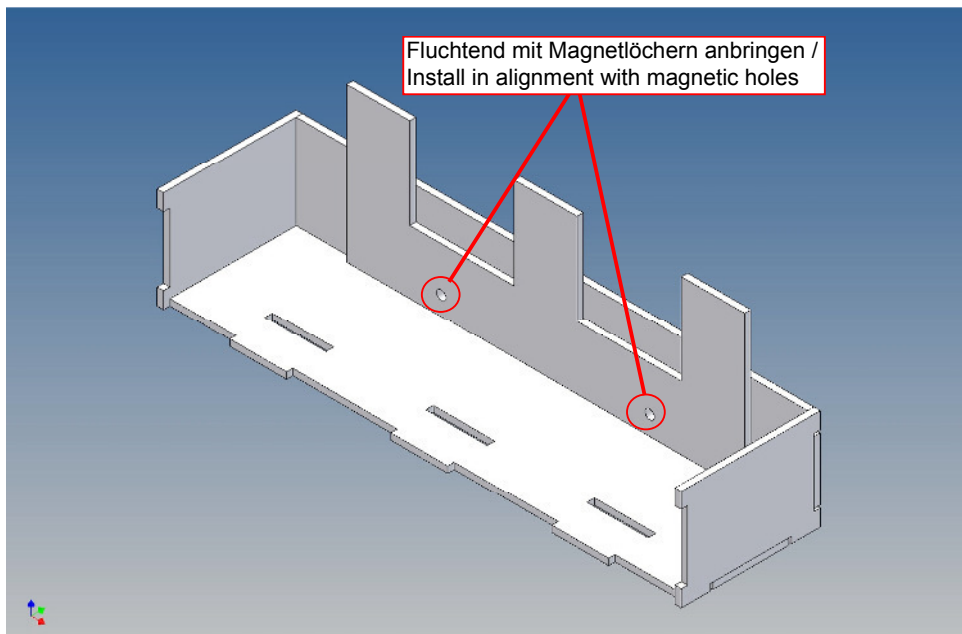

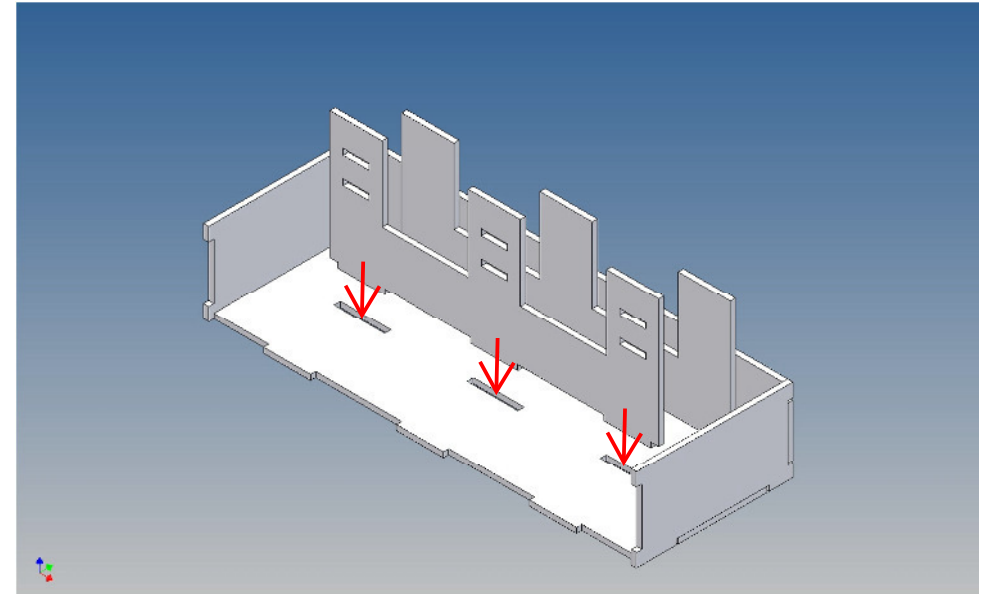

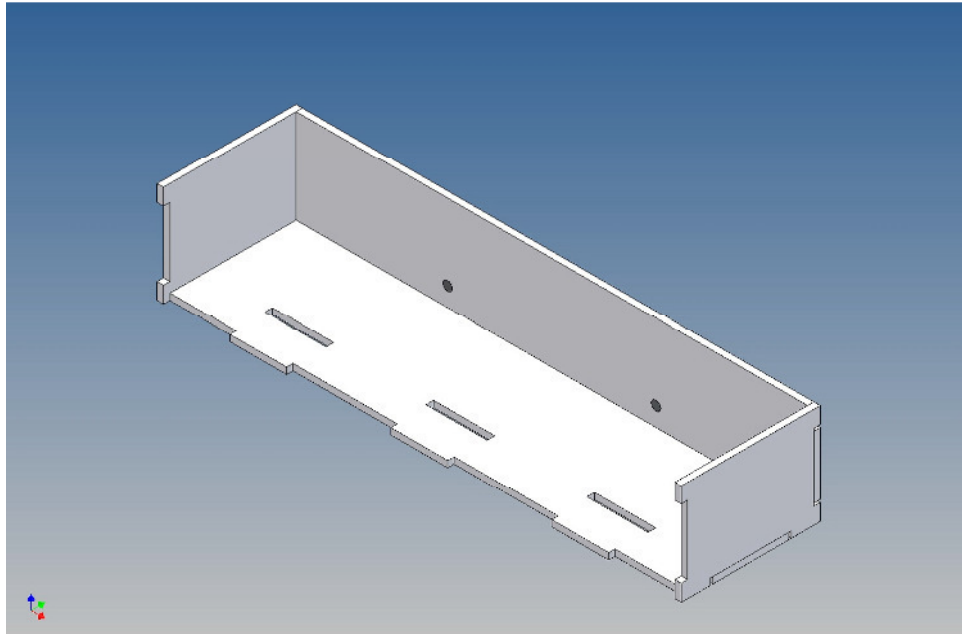

Before you put the parts together please read the assembly instructions carefully and pay attention to the assembly sequence and test the fitting accuracy of the parts before gluing them together.

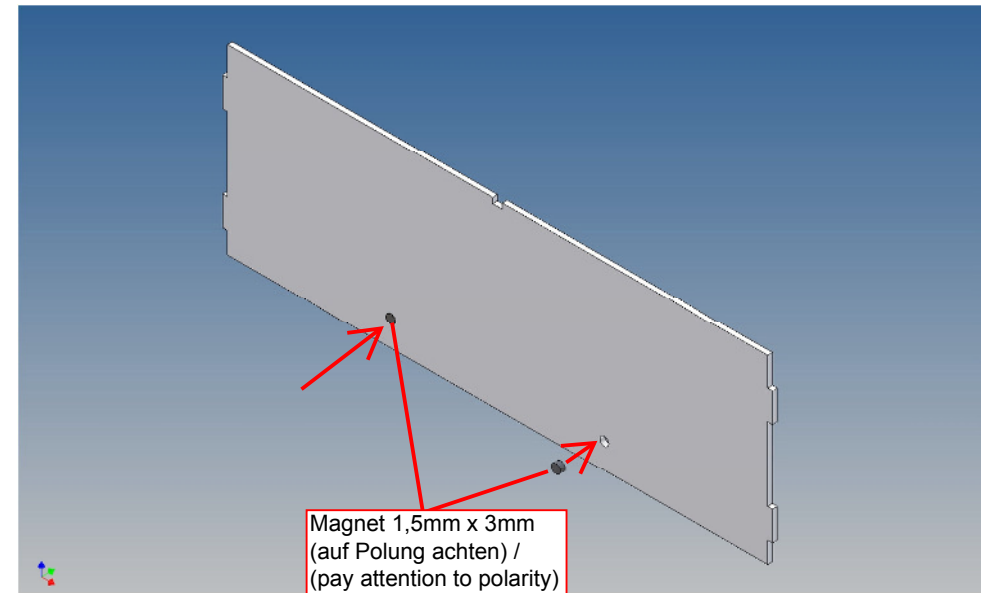

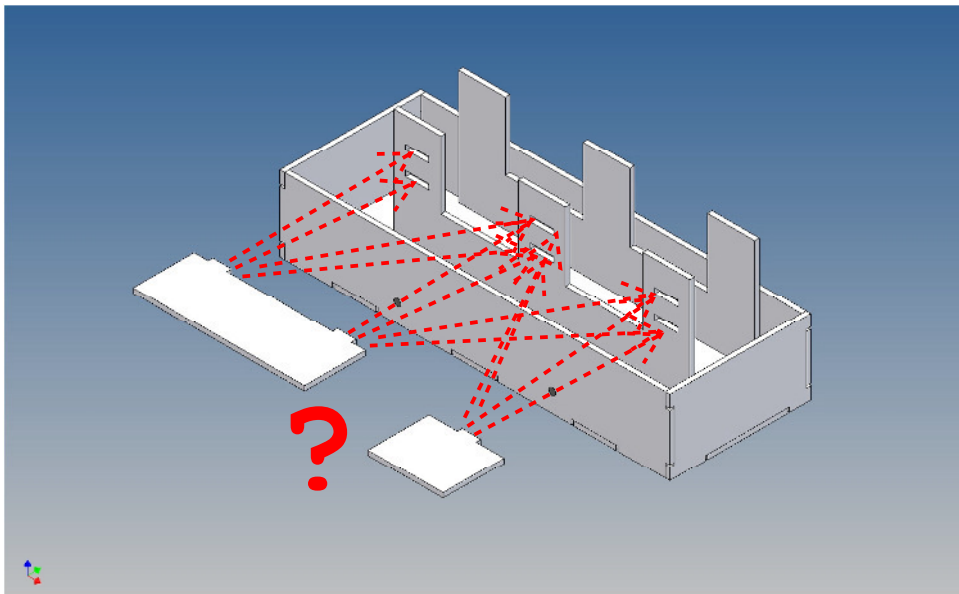

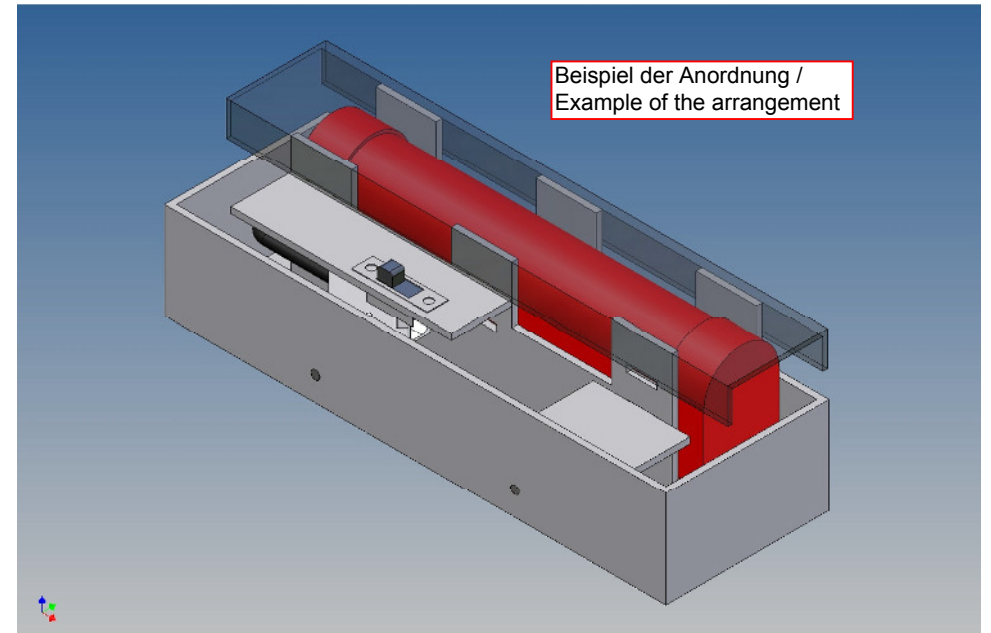

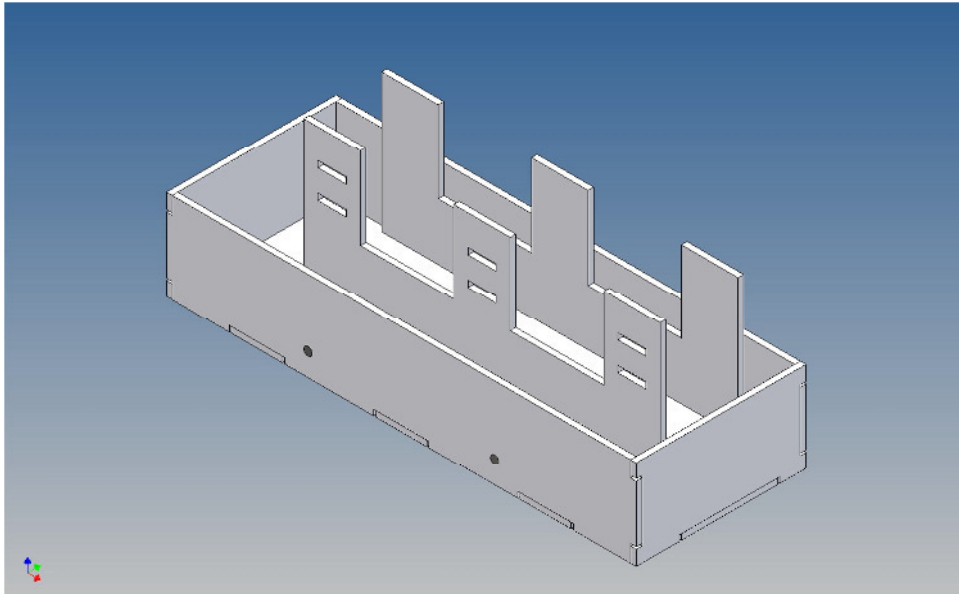

It is helpful to fix the parts at first only on a few points with super-glue and after a check along the edges fully with super-glue or a polystyrene-glue.

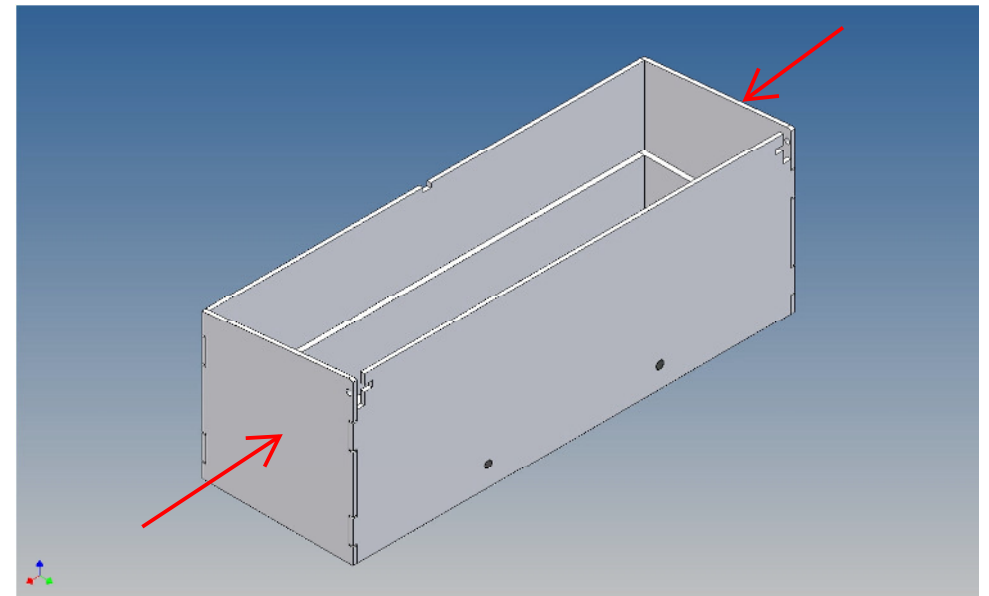

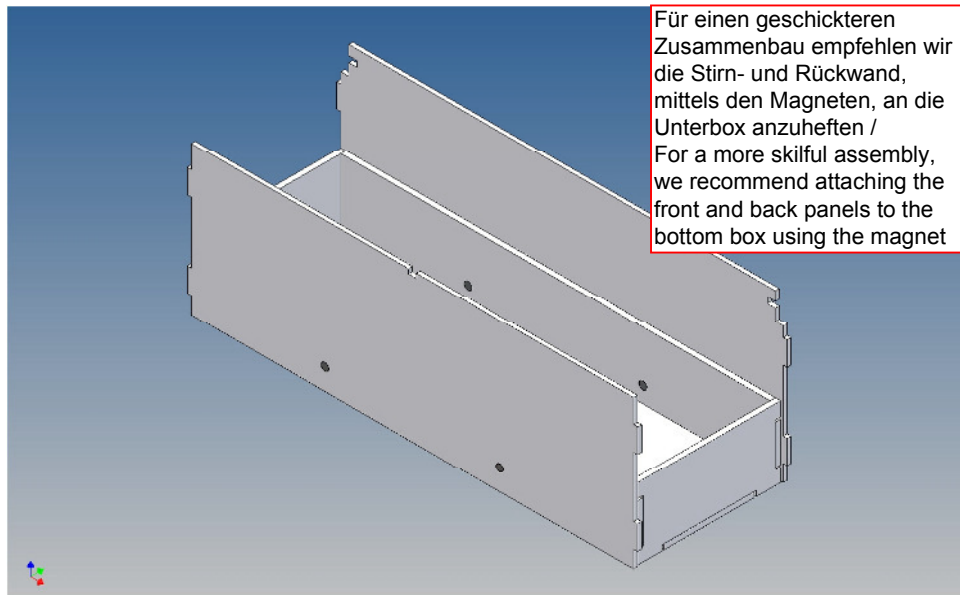

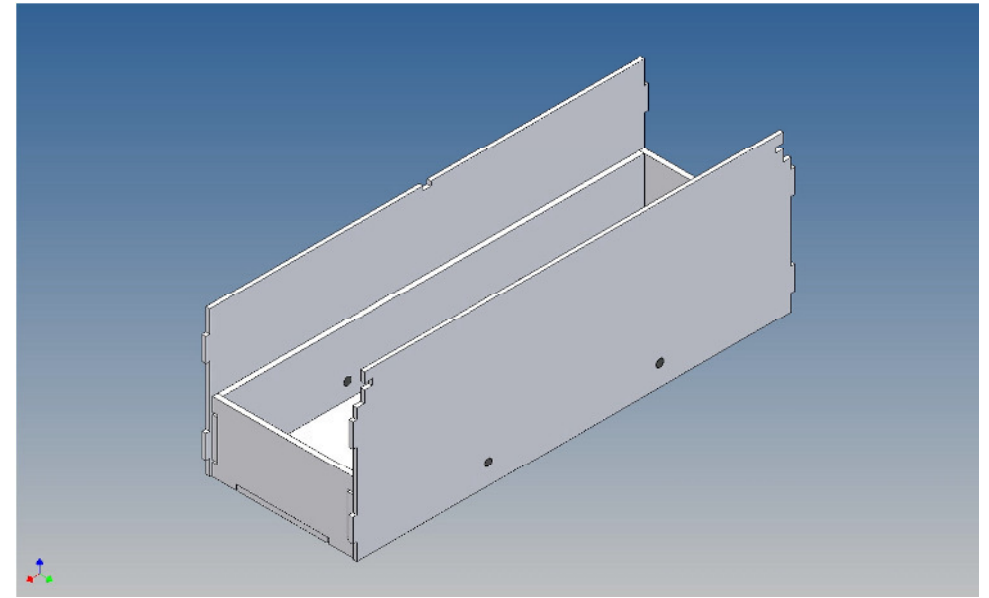

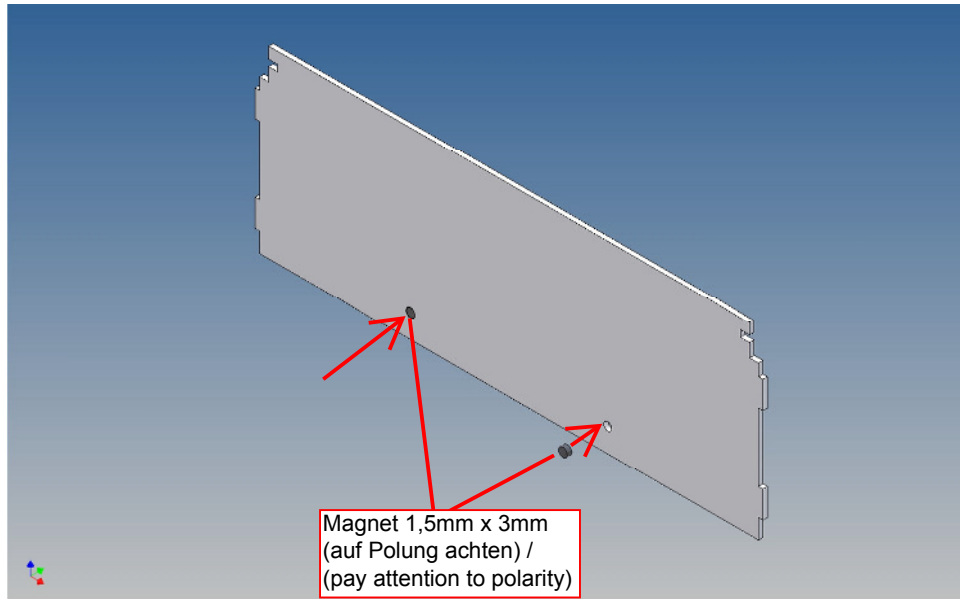

The parts are made of polystyrene, if you use super-glue in combination with activator spray, please be aware that the activator spray can destroy polystyrene – because of that you should use it very carefully or use only polystyrene-glue.

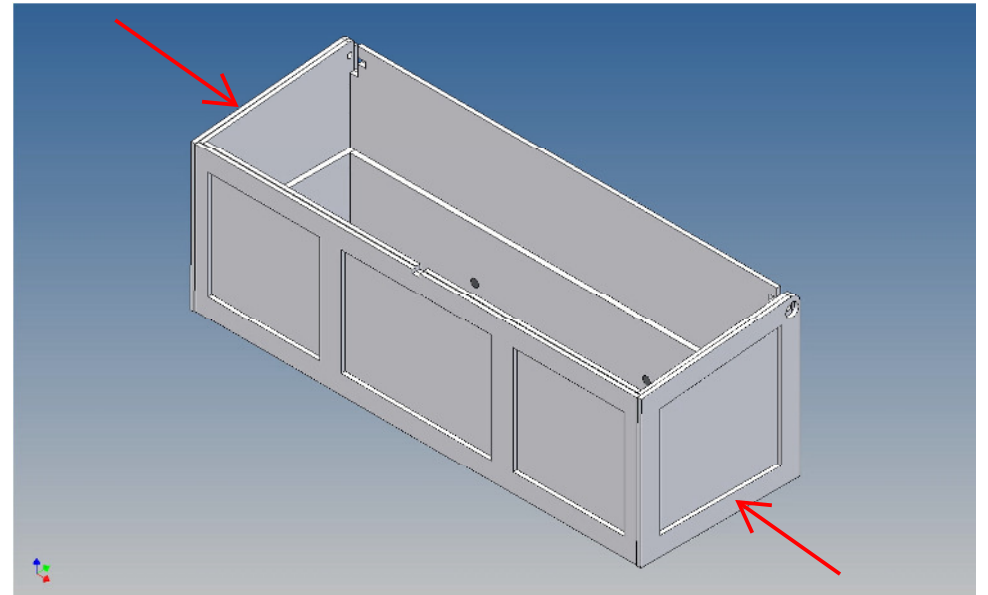

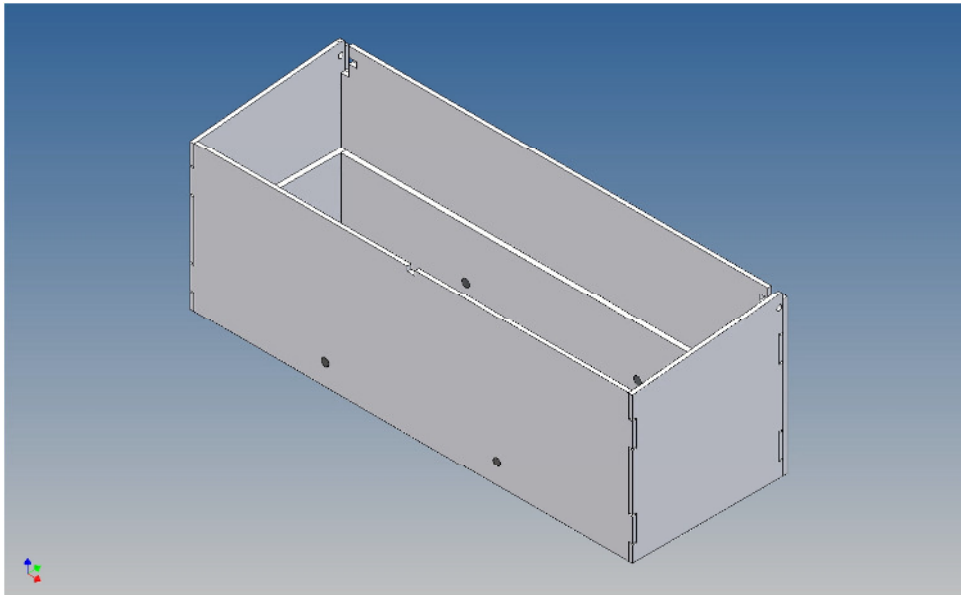

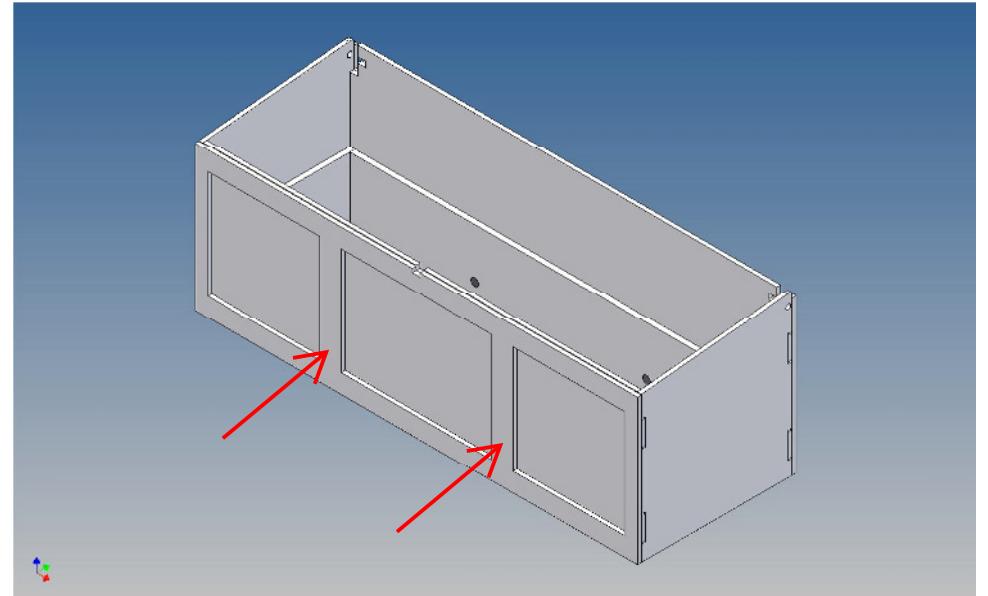

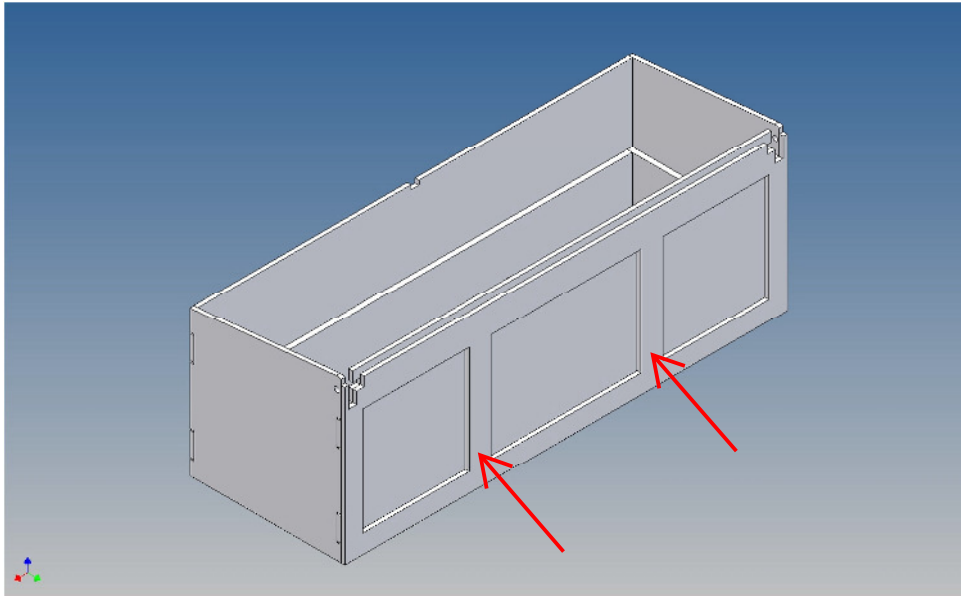

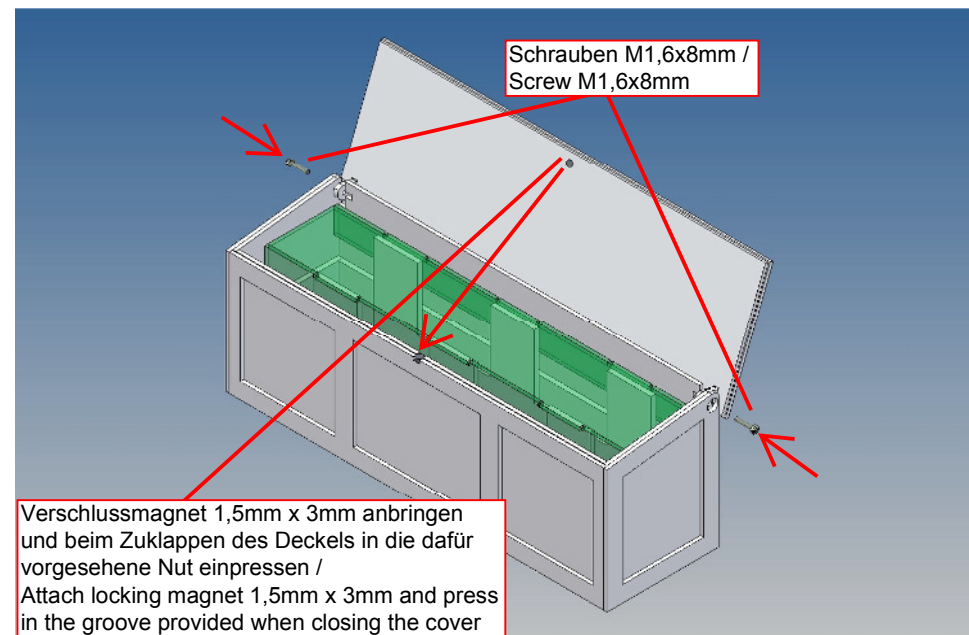

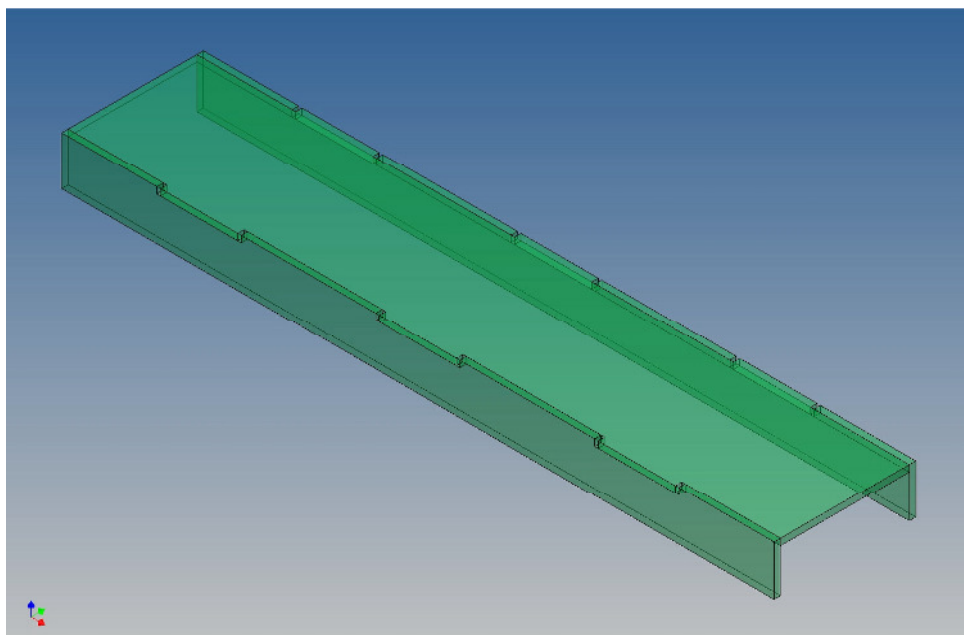

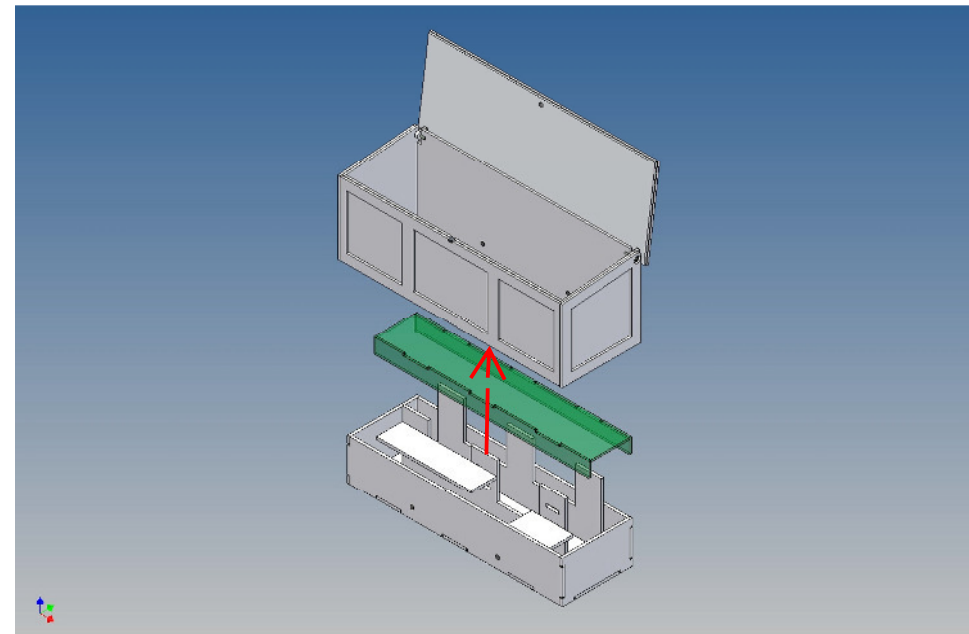

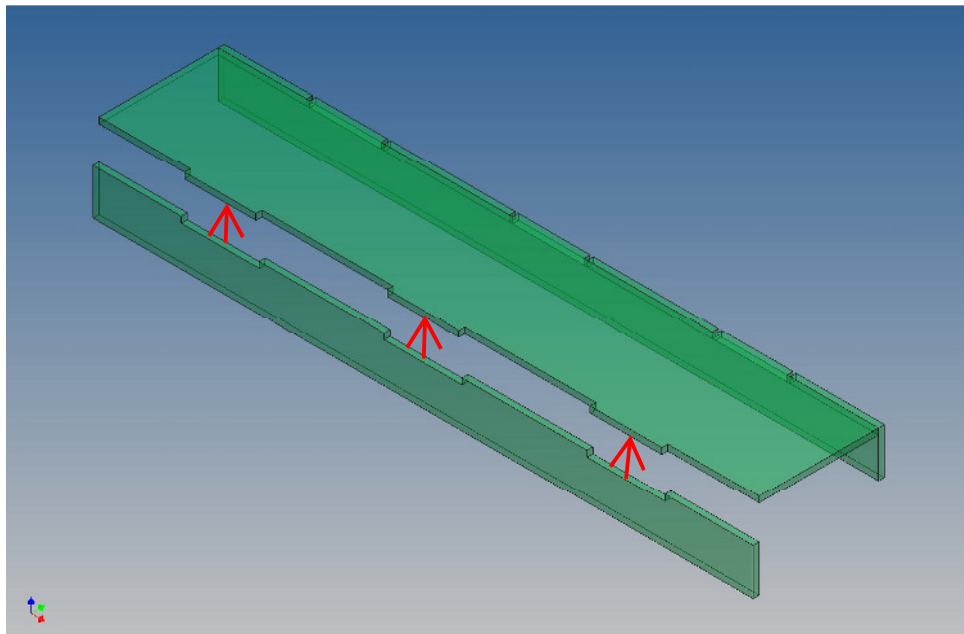

Annotation:

For technical reasons delivery also magnets with different dimensions may be enclosed.
